Don't miss out on this GOLDEN opportunity.
Be ready to experience the

“Most Desirable Island in the WORLD”

Awarded by Wanderlust -2024/25.

Sri Lanka has risen from last year's eighth place to take Gold in one of the Awards' most thrilling turnarounds. Known as the 'Pearl of the Indian Ocean', the nation's history comes to life through spectacular monuments such as Sigiriya Rock, the cave temples of Dambulla and the ancient ruins of Anuradhapura and Polonnaruwa. Elsewhere, its leopard-filled national parks and the jungle-fringed beaches of Tangalle and Trincomalee show off the island's natural side. But, more recently, it's the tea plantations and lush highlands of the centre that have caught the eye, with the fresh addition of the Pekoe Trail offering an exciting new way to explore Sri Lanka's green heart.

Dear All,

Celebrating 14 Years of Excellence.

Movex Cargo recently celebrated its 14th Anniversary. Since its inception, Movex Cargo has been at the forefront of innovation and reliability in the logistics and cargo industry, consistently delivering excellence and earning the trust of clients and partners alike.

To commemorate this significant milestone, a formal celebration event was held on 18th January 2025 in New Delhi. The event brought together Employees, Clients, Industry patrons and Partners from overseas who have been instrumental in our journey of growth and success. Event did turnout as testimony to our belief that Movex is on a right path of serving and shall remain as one of the driving force for our committed actions to the industry in summary.

This anniversary was not only a reflection of our commitment to quality and service but also an opportunity to express our gratitude to everyone who has been part of this remarkable journey.

Here's to 14 years of achievement and to many more milestones ahead!

The Role of Experience and Teamwork (between FFN members)

Efficient Shipment and Delivery of Goods to the Health Ministry in Tunisia

A recent shipment from Albania to Tunis highlights the importance of logistical expertise, flexibility, and effective partnerships when navigating complex delivery situations. The shipment, consisting of a full 40-foot container destined for the Tunisian Ministry of Health, presented a unique set of challenges due to the delivery point's location in a difficult-to-access area.

The goods were transported from Albania to Tunisia, a journey requiring careful coordination. The 40-foot container needed to reach the Health Ministry in a timely and secure manner. However, the complexity arose when it came to unloading the goods at the final delivery location.

Navigating the Delivery Challenge

The designated delivery point, located in a congested area with limited access for large vehicles, posed a significant challenge for unloading a full 40-foot container. This is where the experience and efficiency of our trusted logistics partner, WMA, became indispensable.

WMA's expert team quickly assessed the situation and devised a solution that ensured smooth and safe delivery of the goods. Utilizing a telescopic forklift, they successfully unloaded the container at a secondary point where the terrain was more suitable for unloading. This first step was critical in overcoming the geographical limitations of the final destination.

Final Mile: Delivering with Precision

The next phase of the delivery required transporting the goods from the secondary unloading point to the final delivery location. To navigate the narrow and challenging streets, two smaller trucks were employed, enabling access to the restricted area.

Upon arrival at the delivery site, local manpower was on hand to assist with unloading and ensuring the proper handling of the supplies. With close coordination and support, the goods were delivered directly to the appropriate floor within the building, fulfilling the order in an efficient and organized manner.

A delegation from the Ministry of Health was present together with a representative person from the shippers side in Italy.

The Role of Experience and Teamwork (between FFN members)

This successful delivery underscores the importance of experienced logistics partners and the ability to adapt to unexpected challenges.

The collaboration between our team, WMA, and local resources ensured that all obstacles were overcome and that the shipment was delivered in perfect condition.

The entire operation, from planning and coordination to the final unloading and floor delivery, was a testament to the power of teamwork and expert handling.

This shipment not only demonstrates the complexities involved in international logistics but also showcases how effective problem-solving, experienced partners, and a hands-on approach can ensure a seamless delivery, even in challenging conditions.

Thanks to the efforts of all involved.

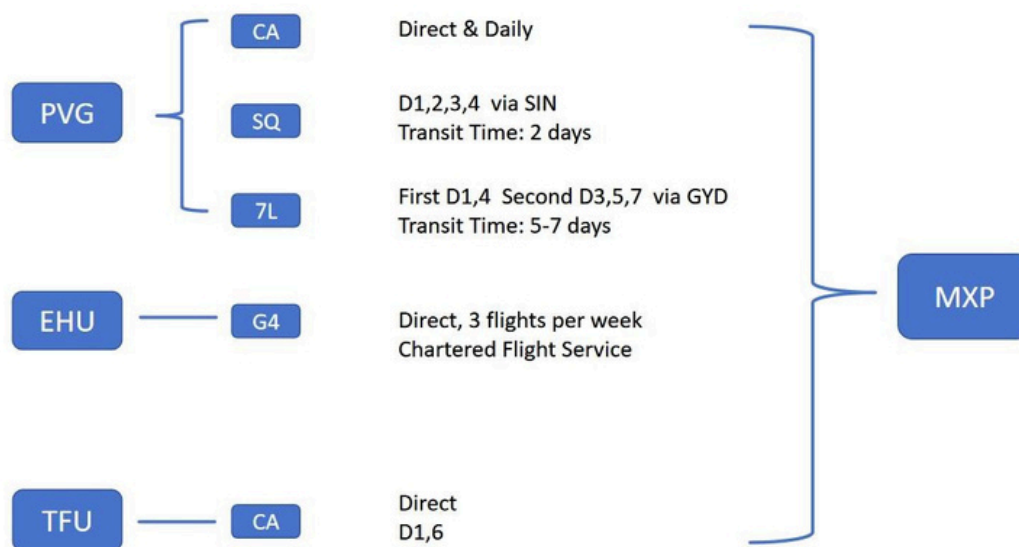

NEW AIR SERVICE PROMOTION from China to Italy

We would like to introduce you our new air service to MXP, starting from 2025. It can cover most areas of China and offer both direct and transfer service with different airlines. Please feel free to contact us if you have any questions. We are looking forward to our further cooperation in 2025.

We welcome the inquiry from any member who is interested and has potential business, please send your inquiry to oversea.cs@vertex-freight.com; oversea@vertex-freight.com .

Agent

Genoa, 03/12/2024

Dear
CUSTOMERS

Subject: Notice of merger by incorporation of Archimede Gruden S.r.l. into Express S.r.l.

Notice is hereby given that by the deed of merger of Notary Andrea Guglielmoni dated November 22, 2024 Repertory No. 24,758, Collection No. 13,346 and having legal effect as of 11:59 p.m. on 12/31/2024, the merger by incorporation of the company Archimede Gruden S.r.l., Tax Code/VAT No. 00162110274, into the company Express S.r.l. has taken place.

The details of the incorporating company are as follows:

- Name: Express S.r.l.
- Registered Office: Naples (NA), Via Alcide De Gasperi 55;
- Fiscal Code/VAT 07485270636
- Registration with the Company Register of Naples no. 07485270636
- REA: NA-625434
- SDI Code T04ZHR3

The incorporating company assumes all rights and obligations of the incorporated company Archimede Gruden S.r.l., continuing in all its legal relations, assets and liabilities arose prior to merger.

As a result of this incorporation and in accordance with the current Privacy Code (EU Regulation 2016/679), the company Express S.r.l. also takes over ownership of the personal data already being processed by the incorporated company and the purposes and methods of processing in accordance with the information already communicated remain unchanged.

As a result of the aforementioned merger by incorporation, as of January 01, 2025, only Express S.r.l. is operational, to which it will be necessary to refer for any business relationship, even if it arose prior to that date.

In particular, invoices and any other fiscal document bearing a date after 31/12/2024 must be addressed to Express S.r.l. – Fiscal Code and VAT no. 07485270636 - while documents with an earlier date must, on the contrary, be in the name of Archimede Gruden S.r.l.

As of 01/01/2025, electronic invoices must be sent exclusively to the recipient code:
invoices.it@expressglobal.com

All communications and any other documents from 01/01/2025 should be addressed to Express S.r.l. and sent to the following e-mail address: express.srl@registerpec.it

Thank you for your cooperation.

Kind regards

Express S.r.l.
Mirco Benedetti

HIP container handling aims to capture relay market

By Shane Jayasekara (Worldlink Shipping Colombo)

As Hambantota International Port (HIP) prepares to upgrade its container operations with the launch of advanced crane technology in early February 2025, Wilson Qu, CEO of Hambantota International Port Group (HIPG) highlighted the port's dedication to exploring new markets to broaden its portfolio. This strategic initiative seeks to increase container volumes and strengthen Sri Lanka's competitiveness in global maritime trade. To achieve this, the port is implementing a comprehensive seaside and landside strategy to position HIP's container division for future growth.

The port's landside strategy is advancing with efforts to attract investors to its industrial zone. A recent agreement was signed to establish a sponge-mattress factory targeting the export markets in the USA, Europe, and Canada. This marks the first agreement since the port launched container operations. With increasing inquiries, the port expects to finalize more agreements in 2025. The industrial zone is set to create significant employment opportunities and encourage partnerships between Sri Lankan entrepreneurs and international companies to meet growing global demand.

As part of its seaside strategy, the port is targeting the relay cargo and transshipment markets, aiming to handle 10 million TEUs between 2025 and 2026. With over 70% of containerized cargo from BIMSTEC countries bypassing Sri Lanka, HIP sees a significant opportunity to capture a large share of this untapped market.

Leveraging Sri Lanka's strategic location and providing tailored landside and seaside solutions, Hambantota International Port is set to reshape regional shipping dynamics and become a key player in global logistics.

Dear FFN Members, Greetings from Circle Dragon Express (CDE) Taiwan! As we step into the new year, we are excited to share some updates with you:

1. Strengthening Global Reach

CDE Taiwan has successfully handled several complex shipments in recent months, expanding our global network and reinforcing our position as a reliable logistics partner in the region. We remain focused on achieving faster transit times through efficient operations to meet your needs.

2. Enhanced Services

We continue to provide tailored logistics solutions, including airfreight, sea freight, warehousing, distribution, and road transport. These services are designed to offer seamless experience for all your import and export requirements.

3. Looking Ahead to 2025

As we embrace the new year, we are ready to tackle new challenges and opportunities. Our commitment to delivering exceptional service and building strong partnerships with our members remains unwavering.

We would also like to take this opportunity to thank all our valued members for their continued trust and support. Together, we look forward to achieving great things in the logistics industry this year! If you have any inquiries or require

assistance, please feel free to reach out to us

at **+886-2-27175565**, email **carloschen@cdragon.com.tw**,

ISL CARGO: France's Next-Generation Freight Forwarder

Founded in 2018 and based in the Paris-CDG, ISL CARGO is IATA certified and fully independent air freight forwarder.

We focus on making shipments smoother for our client by providing an outstanding monitoring and customer services in addition to pre-negotiated competitive air rates. We have developed relationship with a solid and longstanding number of clients across France in a variety of sectors. Our President, Hansraj Luximon, has been involved in the freight forwarding industry for more than 30 years+. The business is family owned and the second generation is now involved in enhancing the company's new capability in technology notably, customer experience and the building of new working tools.

- **Air Freight Specialists :**
 - o We have a deep understanding of the Air Freight market, and we can cater specific solutions for your cargo.
 - o We've cultivated strong relationships with 35+ airlines, airport agents, international partners, warehouse providers, and transporters.
 - o These partnerships ensure competitive pricing and seamless operations across the board.
- **50+ Years of Combined Expertise**
 - o Our dedicated, multilingual team boasts over half a century of combined experience in the freight industry.
 - o Enjoy seamless communication with a single point of contact for all your trade needs.
- **Robust Network Across France:**
 - o Present in key hubs and airports.
 - o Longstanding trucking and warehousing partners covering the whole territory
- **Unparalleled Operational Excellence**
 - o Integrated operations mean competitive pricing for time-critical shipments without compromising on quality.
 - o Gain full visibility throughout the entire process, keeping you informed every step of the way.
- **Our Services includes:**
 - o Air Freight
 - o Warehousing
 - o In-House Custom Clearance
 - o Trucking

Here are some additional updates for our current expansion plans:

- **Customs Operations in Major French Hubs:** We're excited to announce that we'll soon have the capability to handle customs ourselves in all major French hubs, including Marseille, Nice, Bordeaux, Lyon, Lille, Strasbourg, and other key locations. This will significantly streamline the customs process and enhance efficiency.

- **Optimized Routing and Warehousing Across France:** With new warehouses in these major hubs, we aim to optimize routing and reduce operational costs, providing our clients with more efficient solutions.
- **Enhanced Trucking Delivery Capabilities:** We're expanding our delivery capabilities with new regional trucking partners, covering regions more closely to ensure timely and reliable deliveries. This will be highly complementary with the regional customs process we've applied for.
- **Renewed Airline Partnerships :** Key routes optimisations and new rate negotiation with Asia (India, China) and USA. Airlines include AI, HU and VS.

Key highlights and significant events at Worldlink Shipping in 2025 so far!

By Shane Jayasekara (Worldlink Shipping Colombo)

As we embark on another year filled with surprises and opportunities, let us take you on a journey of our recent event at Worldlink Shipping Colombo.

The staff at Worldlink Shipping took part in the annual cricket tournament hosted by SLANA (Sri Lanka Association of NVOCC Agents) on the 11th of January 2025. Both teams, men and women displayed stunning performances despite having less training in a short period of time. The women's team advanced to the semi-finals defeating the odds of playing against skilled players of member companies, while the men's team was also able to make their way through to the quarter-finals with colorful performances.

Three players from the women's team were awarded for their exhilarating performances displayed at the tournament. The captain of the women's team was awarded **"The Best Fielder of the series"** for her amazing fielding capabilities. One player from the men's team was also awarded the **"Player of the Match"** for his extraordinary batting skills. This event not only gave us the opportunity to have fun but also enhanced our team building skills and developed stronger connections with our industry peers.
